Also, as discussed in our phone conversation yesterday, I have also sent the (8, 1-minute increments) dashcam video in a separate link via AXON. I do apologize for the choppy format. If you have any questions or issues at all, please don't hesitate to reach out to me.

Police Records Request - AFPD - Booker (use this official request only)

Jamie Stowers <jstowers@americanfork.gov> Fri, Jun 5, 2026 at 9:38 AM
To: Aaron Booker [redacted]

Good morning Mr. Booker,

I am so sorry, I should have addressed that in my original email. Unfortunately, because it is a different model of dashcam (per our phone conversation), there is no audio. The footage I sent you is the original, unredacted footage.

I do apologize for that inconvenience!

Thank You!

Good morning quick question,

For the dash cam, is there no audio? If there is audio, can you please provide the reason for redaction?

Good afternoon,

After extensive research regarding the ROVE R2-4K Pro, it appears that it does record audio. I would like an on the record response to whoever gathered the video evidence that no audio exists for this footage.
